votes worse than he is." The Republicans have apparently three close districts in Michigan now represented by Democrats, and have captured the districts of Weaver and Anderson, Democratic, in Iowa. They have carried the Cleveland districts in Ohio and two Minnesota districts now represented by Democrats. One Republican Congressman has been gained in Tennessee and the Democrats have gained four or five districts in Virginia.

Wisconsin. MILWAUKEE, Wis., Nov. 8 .- There can be no possible doubt that Wisconsin has gone Republican by from 16,000 to 20,000 majority. The returns are coming in slowly and only 34 of the 67 counties in the State have sent in their figures. These show large gains for the Republicans, and it is estimated it will result in a gain of 33 per cent. over the vote of 1884.

A curious feature is the fact that the Republicans have made their largest gains in Democratic counties, and this is particularly noteworthy in Dane and Ashland counties, where the Republicans have majorities of over 1,000. The Congressional contests have resulted in the Democrats gaining a Congressman in the Second district, which is off-set by the Republicans getting back their Congressman in this (the Fourth) district. Both branches of the Legislature will be strongly Republican. Gabe Bouck, one of the best-known men in the State, a new Congressman and a war-horse of the sembly district by Schmidt, a Republican. Schmidt's majority is only 37, but Bouck's defeat was not anticipated by the

Republicans.

INDIANAPOLIS, Ind., Nov. 8.—Harrison's majority in Indiana will not be less than 3,000, and probably 5,000. The State ticket is elected by about the same majority. Nine hundred and thirty-five precincts give Harrison 147,907; Cleve-land, 141,874. The same precincts in 1884 gave Blaine, 134,603; Cleveland, 184,700. Under the law of Indiana this is the day when the supervisors of elections convene in each county to canvass the returns. These boards are consequently now in session throughout the entire State, and it is possible that by a late hour to-night the vote of the State by counties will be obtainable, although York by not less than 10,000, Indiana by this is doubtful. The canvassing now in session is this city. They are re-ported to be having a lively time over the question as to whether the county clerk, Jno. E. Sullivan, should act as reader for the board. At noon the count was proceeding slowly.

> Missourl. Sr. Louis, Nov. 8.—The gubernatorial question in the State is not settled. Only complete county returns from 19 outside counties are reported at 3 p. m. They are here presented. The straggling and multitudinous precinct reports convey no adequate idea of the result and are not

County will give Francis a majority of 1,356. This is Mr. Kimball's own county. Seventeen out of 19 precincts in Monroe County give Francis 2,93) majority. These authentic figures alone give Mr. Francis 8,797 majority in the State with out counting the large majority he has assumedly received in Jackson and other southwestern and southern counties. As Mr. Kimball goes out of St. Louis and St. Louis County with 12,000 majority Francis will have to add to his 8,797 majority in the State to make his election sure, but it is quite likely that he has done so. Colorada. DENVER, Col., Nov. 8.-The returns have been unusually slow in coming in. It is plain, however, that Hosea Townsed, Rep., has been elected to Congress by a good majority. The Republicans will have a majority of 13 in the Senate and 29 in the House. Returns from 23 coun-

DES MOINES Ia., Nov. 8.-Lacey beats Weaver by 946 majority. Flick beats Anderson in the Eighth district by 1,465 majority. Twenty-three counties, complete vote, give steady Republican gains that indicate a Republican plurality of 30,000 for Harrison. The State ticket is but little behind, and the Railroad Commissioners are not scratched as badly as was supposed. The Republican candidate will all be elected. The only Democratic Congressman elected is Hayes, in the Second district.

DES MOINES, Ia., Nov. 8.-Later returns make no change in the estimated result in Iowa. Harrison's plurality will probably reach 30,000. The Republicans carry every Congressional district but the Second-a gain of two.

Minnesota. ST. PAUL. Minn., Nov. 8 .- It is estimated that the State gives Harrison and Morton 28,000 plurality and Merrian, Rep. for Governor, 20,000 more votes than Wilson. All of the Congressional districts in the State elect Republican Congressman, Hall beating McDonald in the Third district by 1,500 and Dunnell having about the same plurality over Wilson in the First. The Globe (Dem.) concedes that the State has gone for Harrison by 20,000; for Merrian, Rep., for Governor, by 10,-

Illinois. CHICAGO, Nov. &-The returns from all the counties in Illinois on the vote for President and Governor indicate that General Harrison has carried the State by over 21,000 plurality, while "Private" Fifer, Republican, for Governor, has run ahead of General Palmer, about 13,000 votes. The Democrats elect Congressmen in the Second, Tweifth, Thirteenth, Sixteenth, Seventeenth and Nineteenth. The Eighteenth will be very close, but the Republicans claim that Jenu Baker is re-elected by a small majority.

A TERRIBLE FIRE.

A Large Number of Persons Killed and In-jured by the Burning of the Rochester Steam Guage and Lentern Works at Rochester, N. Y.—The Death List May Reach Upwards of Fifty.

ROCHESTER, N. Y., Nov. 10.—The most isastrous and fatal fire that has hapdisastrous and fatal fire that has happened in this city for many years occurred last evening, and the less of life
is expected to reach between fifty and
sixty persons. A general alarm was
sounded at half-past seven o'clock on fire
being discovered in the packing-room of
the Rochester Steam Gauge & Lantern
Works, an important factory employing
a large number of men. So busy has the
factory been lately that the men have
been working night and day to catch up been working night and day to catch up on orders. The locality where the fire occurred is regarded as somewhat dangerous, and when the report got abroad that the lantern works and the cotton factory in its vicinity were on fire there was interned avoitement all over the there was intense excitement all over the city, which was increased, when at nine o'clock the rumor got abroad that a large number of men had been killed. The building to which the fire was confined was six stories high. About sixty men were working in the three upper floors, and as soon as they found there was fire underneath them they began to leap from the windows, ignoring the fire escapes with balconies that were ready for them on the south side of the building. In these leaps quite a number of men were injured, many of them so seriously that they will probably die. By nine o'clock the building was entirely destroyed and five men had been taken out dead, sixteen seriously injured, fourteen were entirely safe, and the rest unac-counted for, of whom quite a number are

unknown by name. The scenes at the fire were heart-rending, and prominint among those who were present after the fire were three priests in their surplices, who administered spiritual comfort to those who

were in a dying condition. The factory was built on the high bank on the west side of the Genesee river, and was a difficult one for the firemen to get at, owing to one side being closed to

Two buildings that were in great danfor a long time were the Rochester Cotton Factory an Williams & Hoyt's shoe factory; but both of these buildings were saved from destruction, the only damage done to them being by smoke and water.
Following is a list of the casualties so far as learned up to midnight. The killed are:

John Gall, foreman. Joseph Danzer; jumped from sixth floor, and pickel u. dead. Henry Snyder; burned internally. Frank A. Ochs. Joseph Webber.

The injured are: Frank Siddons; both legs and back broken; will probably die.

Jacob Diehl, night watchman; burned internally and prostrated by shock.

John Devlin; left leg and wrist injured and more or less burned and bruised. John Greenauer. William Devlin.

Joseph Burkhard Charles Diehl. G. Kippert. Stephen Forbes. John Greensuer, No. 2 Con. Holleran. John Ball. Those known to be missing are: Thomas Mathias. S. Robbins. Charles Weber I hn Miller. Patrick Cosgrove.

Richard Connor.

Frank R. Evnish.

G. Watters.

Charles Smith.

Robert Poole.

Frank Froedlin.

S. Burkhard.

Oscar Knotts.

Alfred Cannon. These are known by name to be missing, but until the books are examined it will not be possible to tell who were actually at work. Among those saved were: John Platts, who escaped by sliding from the sixth floor. He says there were thirty persons at work on that floor, and three were saved-Robert and Ho-

ratio Hall and Joseph Smith. Platt thinks that about ten others escaped with him. The lantern works, with stock and machinery, is a total loss, estimated at about \$225,000. The insurance is \$179,000. The cause of the fire is a mystery.

The men went to work after supper and all seemed to be right then. Soon afterward Jacob Diehl, the watchman, while making his usual rounds, discovered flames making their way up through the floor. He had barely time give the alarm when he was surrounded by the flames, but he succeeded in making the danger known to the men on the fourth, fifth and sixth floors. They ut once reatized their perilous position, and made their way from the building, but before they all got out the structure was a seething mass of fire. There was not the slightest chance of escape by the usual doors of exit, and the windows were at once utilized for the purpose. The majority of the workmen lost their heads and began to jump instead of taking the fire ladders that were attached to

It is believed that a number of men are buried in the ruins, but at present it is impossible to be sure of this. All may have escaped, but the probabilities are decidedly against it. As soon as the ruins are sufficiently cool, work will be begun of searching for bodies. The streets were crowded with people

during the progress of the fire, angious for their friends and acquaintances.

They stood through the heavy rain which fell constantly during the evening, and watched the operations of the firemen, and did excelent work in saving the adjoining factories, but were too late to be of use in the lantern works.

Axworthy Invisible.

MONTREAL Out., Nov. 9 .- Mayor Babcock of Cleveland, O., who has been here for the past ten days to obtain an interview with defaulting City Treasurer Axworthy, leaves this morning for Albany, N. Y. His mission has been a complete failure. He states that he has not seen or heard of Axworthy. He belives, if he could get to Axworthy or his lawyer and explain what he wants, there would be no hestitancy on Axworthy's part in coming forward. The mayor wants certain information which, while it will benefit the city of Cleveland and himself, will not embarrass Axworthy in the slightest degree. He will probably return to Montreal shortly.

A Hundred and Sixty Men Killed by a

Kansas City, Mo., Nov. 10.—A special from Pittsburgh, Kan., says: "The most dreadful disaster in the history of Kansas occurred at five o'clock last evening. when the men were preparing to leave their work at Shaft No. 2 at Frontenac, a their work at Shaft No. 2 at Frontenac, a suburb of Pittsburgh. A terrible explosion occurred that shook the earth for a great distance. Upon investigation it was found that 160 men were in the mine at the time, 112 feet below the surface, and undoubtedly all of them are dead. Two men who were in the car coming up and were near the top were the only men
